

GANESH RAAJ S S

[+91 7338902478 / ssganeshraaj@gmail.com]

Synopsis: Software Engineer with 2+ years of experience in web application and full-stack development. Proficient in C#, .NET, Python, SQL Server, React.js, and Microsoft Azure. Working on backend development, REST API integration, application performance, debugging, and responsive web applications. Hands-on experience with Microsoft Azure and AI-assisted development using GitHub Copilot and Claude. Strong problem-solving, collaboration, and knowledge-sharing skills with a focus on delivering quality solutions.

EXPERIENCE SUMMARY:

- **Software professional with** 2+ years of experience in front-end and web application development.
- **Hands-on experience in developing** responsive web applications **using Framework Libraries.**
- **Working knowledge of** C#, .NET, Python, and SQL Server **for application development and backend integration.**
- **Experience in** React.js development, **including reusable components, UI implementation, state management, and API integration.**
- **Experience working with** Microsoft Azure **and cloud-based application environments.**
- Working on User Interface implementation for Responsive web applications.
- **Experience using** GitHub Copilot and Claude **as AI-assisted development tools for code generation, troubleshooting, refactoring, and development productivity.**
- Working on Webpage design and layouts.
- Working on API integration.
- **Conducted** Knowledge Transfer (KT) sessions for teammates, **sharing technical knowledge, application functionality, development practices, and project-specific information.**
- Ability to work independently and as part of a team.
- Able to use a strong technical background to analyze complex processes and develop innovative solutions to challenges.

AREAS OF EXPERTISE:

Programming Languages & Scripting

- C#
- Python
- JavaScript
- HTML5
- CSS3
- SQL

Frameworks & Libraries

- .NET / ASP.NET
- React.js
- Motif UI
- Bootstrap
- Material UI

Cloud Technologies

- Microsoft Azure

AI-Assisted Development

Tools

- GitHub Copilot
- Claude

[PERSONAL WORKS:](#)

[EDUCATIONAL QUALIFICATION:](#)

[PERSONAL DETAILS:](#)

WORK EXPERIENCE:

1. Hexaware Technologies Ltd - From OCT 2024 - Till date.

Client:	EY [Ernst & Young]
Role:	Associate Software Developer
Duration:	OCT 2021 - Till date
Tools Used:	Dot Net, SQL Server, React Js, Python

Roles and Responsibilities:

- Working on backend development using C#, .NET, Python, and SQL Server for application development and integration.
- Developing and maintaining user interfaces using React.js, JavaScript, HTML5, CSS3.
- Working with UX to implement visual concepts and ensure a consistent user experience.
- Optimizing web applications for maximum speed and scalability, while ensuring a smooth and delightful user experience across various devices and browsers.
- Ensuring cross-browser compatibility.
- Working with other developers to build and maintain complex applications.
- Communicating effectively with designers, developers, product managers, QA & Team members
- Implementing modifications and updates to improve application performance
- Supporting and guiding the team for analyzing and fixing the defects.
- Conducting and participating in code reviews to team members.
- Providing code documentation and other inputs to technical documents.

PERSONAL WORK:

1. Document Similarity Comparison & Ranking System - May 2025 to June 2025

Tools Used:	React, FastAPI, MS SQL, Git, Azure, OpenAI, OpenTelemetry
-------------	---

Roles and Responsibilities:

Responsibilities:

- Designed and implemented an AI-powered resume-to-JD matching engine using a dual-layered comparison strategy:
 - **Stage 1:** Semantic filtering using Azure OpenAI text-embedding-3-small and cosine similarity to shortlist Top-N relevant candidates.
 - **Stage 2:** Deep comparison using gpt-4o-mini to generate contextual relevance scores and human-readable explanations.
- Developed backend services using **Python and FastAPI**, with modular service layers for resume/JD uploads, text extraction from PDF and DOCX files, embedding generation, similarity computation, and GPT-based evaluation and ranking.
- Used **Azure Communication Services** for sending emails.
- Used **OpenTelemetry and Azure Application Insights** for application metrics, logs, and traces.
- Stored and managed resume and JD data using **MS SQL Server**, including consultant profiles, resume metadata, job descriptions, skills, pre-computed embeddings, GPT explanations, similarity scores, and ranking history.
- Integrated **Azure Blob Storage** to store uploaded resumes and reports using logical folder structures and access-tier controls.
- Built secure authentication and **RBAC** using **Okta MFA**.

EDUCATIONAL QUALIFICATION:

Degree / Schooling	Institution	University / Syllabus
Bachelor of Engineering [CSE] (2020-2024)	Chennai institute of Technology, Kundrathur, Chennai	Anna University

PERSONAL DETAILS:

Name	Ganesh Raaj S S
Contact Number:	+91 7338902478
Personal Mail ID:	ssganeshraaj@gmail.com
Marital Status:	Single
Current Location:	Chennai, Tamil Nadu, India
Passport	Yes
